

## TD DYELAB

robotized  
dispensing  
and dyeing  
system

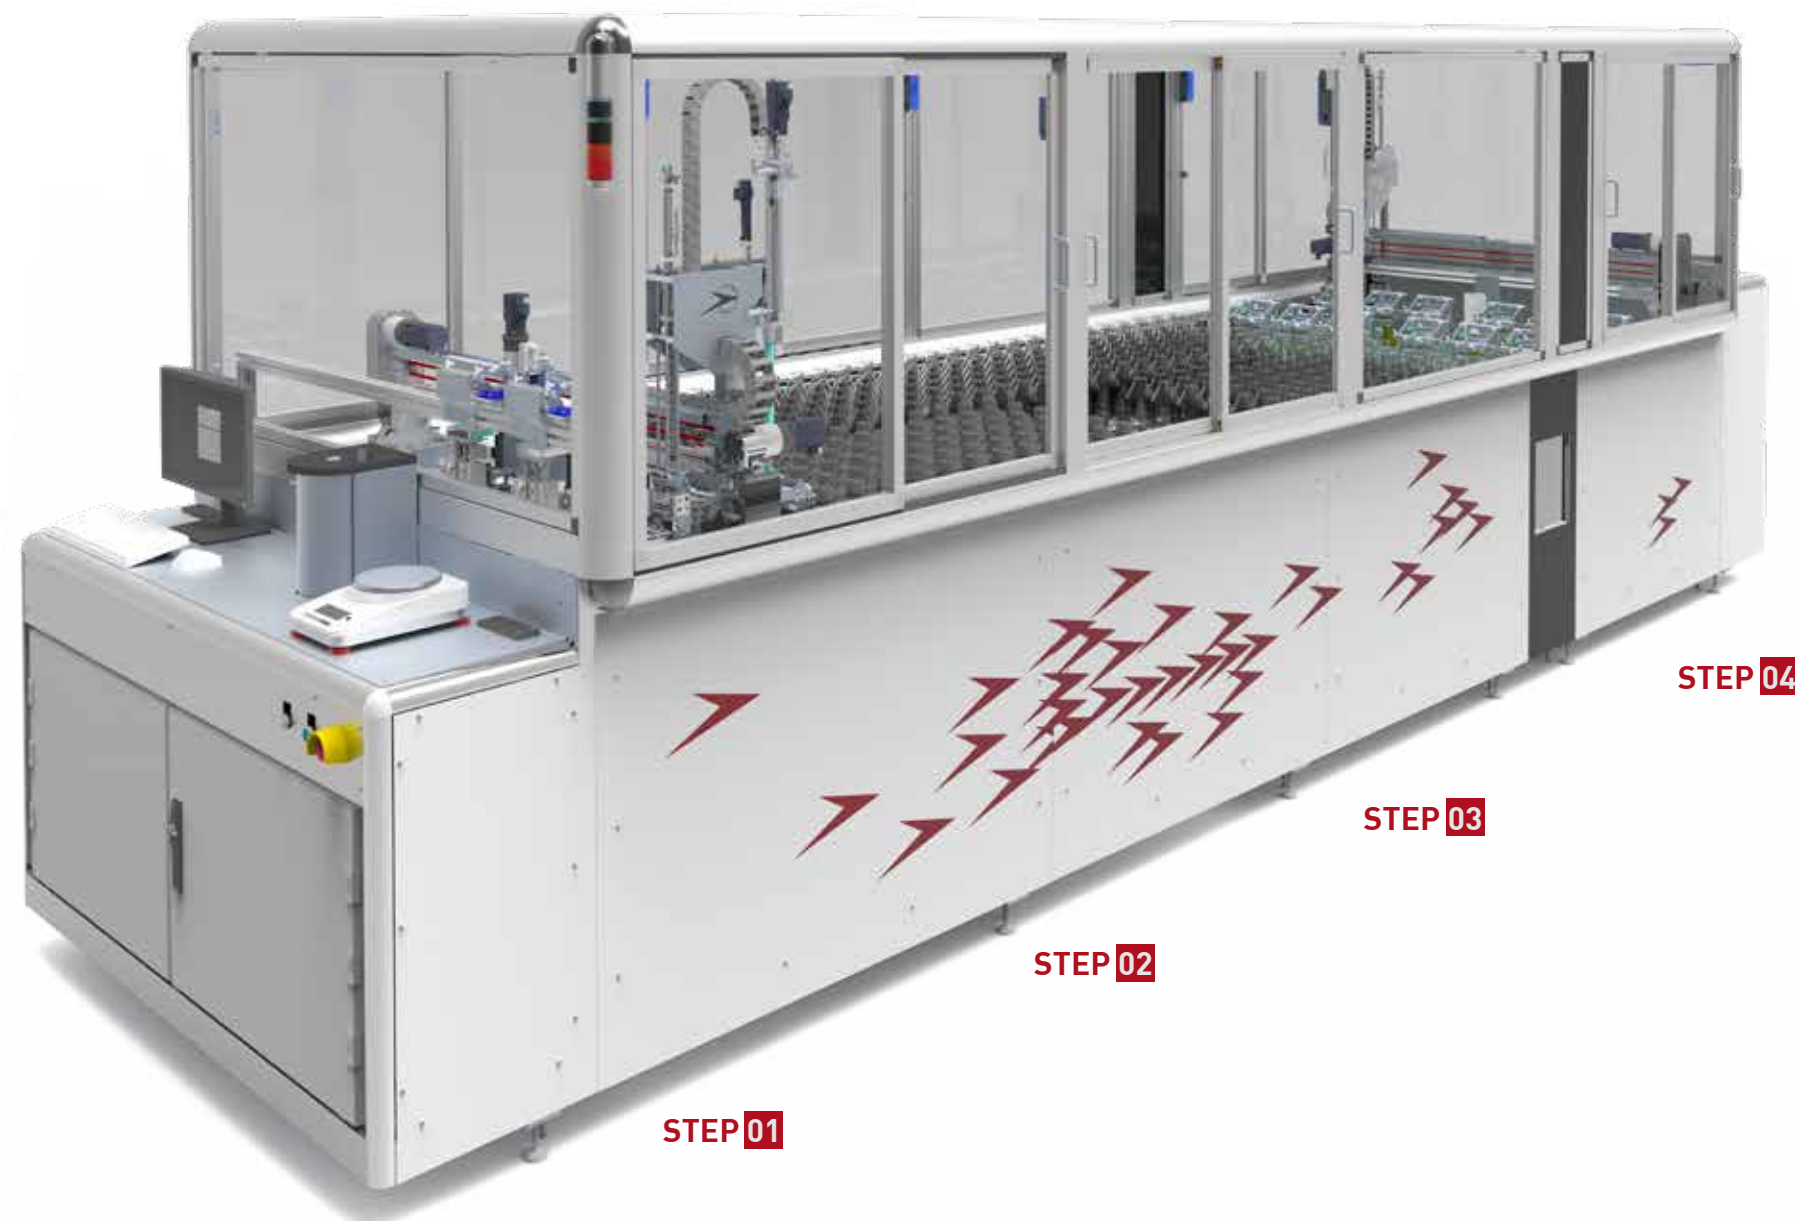

# TD-DYELAB

## ADVANTAGES

### High process speed, thanks to:

- Total closure of the machine
- Double robotic arms
- Colour weighing with independent handling
- Product insertion in HT vessels without the machine opening

Reduced liquor ratio to simulate the real dyeing cycle

Modular machine for the full automatic powder dyestuff weighing till preparation and dosing of the dyeing recipes into beakers and built-in HT vessels to complete laboratory swatch dyeing processes.

01

Powder dye weighing and solution preparation

Bottle washing

02

Powder dye storage

Dye solution storage

03

Dispensing in beaker

Double robotic arms

04

Equipment loops

Dyeing machines
